

## Bowen for the Immobile and Stroke care

**Robyn Wood**

2 days / 16 hours

Prerequisite: Module 8

BOWEN for The IMMOBILE and STROKE CARE One day workshop, or 8 hours CEUs The presentation is Power point based, and a manual is supplied. 1. We look at the different types of Strokes , why they happen, and the challenges we face in treating Immobile people . 2. We create a roadmap of the functions of the brain and allocate suitable Bowen procedures to those sites. 3. Practical sessions are done in threes, and show how to do all Bowen moves in either seated or semi supine positions. 4, We explore exercise programmes, including stimulating games for the mind, to support the Bowenwork. How to deal with negative attitudes as a result of the Stroke. A segment on CHRONIC FATIGUE is included in English speaking countries. We never know when we may need this special expertise. Great extra knowledge for practitioners.
